MOHAMED SAYED

Frontend Developer | React.js & UI Specialist Alexandria, Egypt | +201287025435 | ms1701240@gmail.com

LinkedIn | GitHub | Portfolio

SUMMARY

Creative, detail-oriented, and results-driven Frontend Developer with extensive expertise in building high-performance, responsive web applications using Angular, **React.js** and **Next.js**. Possesses a strong full-stack mindset with proven experience integrating backend services, real-time databases (**MongoDB**), and cross-platform tools. Passionate about clean code architecture, UI/UX best practices, and delivering seamless user experiences.

TECHNICAL SKILLS

- **Frontend:** Angular,Next.js, React.js, Vite, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design.
- **Backend & Database:** Node.js, Express.js (REST APIs), MongoDB Atlas.
- **Game Development:** Unity 3D, C# Programming.
- **Tools & Platforms:** Git, GitHub, Vercel, Netlify, Railway, UI/UX Components Optimization.

FEATURED PROJECTS

1. Elegant Store (E-commerce UI) * Developed a modern e-commerce interface using **React.js**, focusing on state management and smooth navigation.

- Implemented responsive layouts using **Bootstrap** for a mobile-first experience.
- Live Demo

2. Full-Stack Feedback System * Built a CRUD application to manage user reviews, connecting a **React** frontend to a custom-built **Node.js/Express** API.

- Managed data persistence using **MongoDB Atlas** and deployed the backend on **Railway**.

3. Educational & Landing Pages Collection * School Management UI: A clean dashboard interface for educational institutions. Link

- **Clothes Store Landing Page:** High-conversion landing page with modern UI elements. Link
- **Weather Api website: https://ms1701240-cell.github.io/weather/**
- **Games Api website:** https://ms1701240-cell.github.io/games/

4. Resistance Hero – 3D Action-Adventure Game

- Designed and programmed a standalone 3D mobile game using **Unity** and **C#**, managing game logic and player mechanics.
- Implemented optimized mobile-touch inputs (dual-joystick layout) and built dynamic UI components for health and live score counters.
- Successfully packaged, deployed, and published the stable alpha build globally on Itch.io.
- Live Demo
- Live Demo

5. Kora Live (ماتش كورة) – Live Sports Platform

- Developed a modern, fast-loading live football match tracking dashboard using **React.js** and **Next.js** optimized for SEO.
- Styled a fully responsive interface from scratch utilizing **Tailwind CSS** to ensure flawless mobile-first scaling.
- Live Demo

6.E-Commerce Store by Next.js:

- Styled a fully responsive interface from scratch utilizing **Tailwind CSS** to ensure flawless mobile-first scaling.
- Live Demo

7.Cooking Delight Website :

- Styled a fully responsive interface from scratch utilizing **Bootstrap CSS** to ensure flawless mobile-first scaling.
- Live Demo

8.School DashBoard by Angular FrameWork:

- Live Demo

EDUCATION

- **Bachelor of Law**, Faculty of Law, Alexandria University | **2025**

• **Web Designer Professional Track**, Digital Egypt Youth (DEY) | **Aug 2025**

CERTIFICATIONS & TRAINING

- **Web Designer Track** – Digital Egypt Youth (DEY) | View Certificate
- **ITIDA & E-Youth GIGS Certification** | View Certificate • **Game Development (Unity & C#)** | View Certificate • **C# Programming Fundamentals** – Edraak Platform | View Certificate

- **Front End Development Certification** – Gig Skill Boost Program, Nile University (Funded by Banque Misr Foundation) | 2026 | View Certificate

- Software Engineering & Data Science Field Training Program | View Certificate
- Web Development Internship at Codveda Technologies | View Certificate
- Front-end Angular Framework Internship at Pyramakerz Company |View Certificate
